

# Warren Reservoir

## DESCRIPTION

Warren Reservoir is located near the town of Williamstown in the southern Barossa Valley. It has been stocked with Murray cod, Golden perch and Silver perch and also contains populations of the exotic species Redfin and European carp.

Warren Reservoir has parking facilities at three entry points and toilets are located at the main entrance. Warren Reservoir can be fished from the bank or from unpowered water craft in the designated areas.

## ACCESS

Access to the Warren Reservoir is only available to holders of a RecFish SA Reservoir Fishing Permit. Permits are available to members of the public and can be purchased at:

<https://recfishsa.org.au/reservoir-fishing/>

The Warren Reservoir is open every day from dawn till dusk except on days of total fire ban ([http://www.cfs.sa.gov.au/site/fire\\_bans\\_and\\_ratings.jsp](http://www.cfs.sa.gov.au/site/fire_bans_and_ratings.jsp)).

## FISHING METHODS

Artificial fly, lure & bait. see Conditions of Access on permit.
